PROFILE SUMMARY

Junior Full-Stack Developer with hands-on experience in frontend and backend web development. Skilled in HTML, CSS, Bootstrap, JavaScript, Vue.js, Java, and Spring Boot. Experienced in building RESTful APIs, working with MySQL databases, testing APIs using Postman and Swagger, and managing projects with Git and GitHub. Passionate about developing clean, responsive, and user-friendly web applications while continuously improving full-stack development skills.

PROFESSIONAL EXPERIENCE

Frontend Developer Internship

10,May 2026- 19,July 2026

ETEC Center - KRU IT Solution | Phnom Penh

- Collaborated on UI/UX Designs: Utilized Figma to design intuitive user interfaces and wireframes, transforming conceptual mockups into responsive, production-ready web components.
- Developed Authentication Features: Built and implemented a se cure, responsive "Forgot Password" page, ensuring a smooth and user-friendly authentication flow.
- Dynamic Data Integration: Integrated RESTful APIs to dynamically fetch, filter, and render real-time data into interactive data tables, improving data visibility and UI performance.

ACADEMIC PROJECTS

Food Express (Web Application)

Technologies: HTML, CSS, Bootstrap, JavaScript, JSON API

- ·Built a responsive layout and handled dynamic data fetching using JSON REST APIs.
- ·Created and validated robust client-side user login structures and workflows.

Restaurant Management System

Technologies: Vue.js, Bootstrap, JavaScript

- ·Engineered responsive data tables and structured view templates within Vue ecosystem.
- ·Designed user workflows including functional Forgot Password configurations.

Trip VOLVOL – Travel Management Web Application

Technologies: Java, Spring Boot, Spring Data JPA, MySQL, REST API, Postman, Swagger

- Developed RESTful APIs using Java and Spring Boot.
- Implemented database operations using Spring Data JPA and MySQL.
- Used XAMPP to manage the local MySQL database environment.
- Tested REST APIs and CRUD operations using Postman.
- Tested and documented API endpoints using Swagger.
- Connected backend APIs with the frontend application.
- Managed source code using Git and GitHub.

EDUCATION

Bachelor of Science in Information Technology

Royal University of Phnom Penh (RUPP) 2023 - Present
